

Description

During well testing and flowback operations, the data header is used to connect the instruments and sensors for data acquisition, and the collection of fluid/gas samples.

Applications

- Well testing
- Well Clean-up
- Frac Flowback

Operating Specification

| SIZE | 2 in. | 3 in. | 4 in. |
|------------------|-----------------------------------|-----------------------------------|-----------------------------------|
| WORKING PRESSURE | 5k | 10k | 15k |
| CODES | ASME Sec VII Div. NACE MR01-75 | ASME Sec VII Div. NACE MR01-75 | ASME Sec VII Div. NACE MR01-75 |
| INLET | 2 in. 1502 Weco | 3 in. 1502 Weco | 4 in. 1502 Weco |
| OUTLET | 2 in. 1502 Weco | 3 in. 1502 Weco | 4 in. 1502 Weco |
| PORTS | (3) ½ in. NPT (2) ¾ in. NPT | (3) ½ in. NPT (2) ¾ in. NPT | (3) ½ in. NPT (2) ¾ in. NPT |
